OUR WEBSITE

Our Podcast

We launched our podcast, "A Breath of Fresh Marketing," in the winter of 2019 and continue to push out new podcasts weekly with guests from every corner of the marketing world.

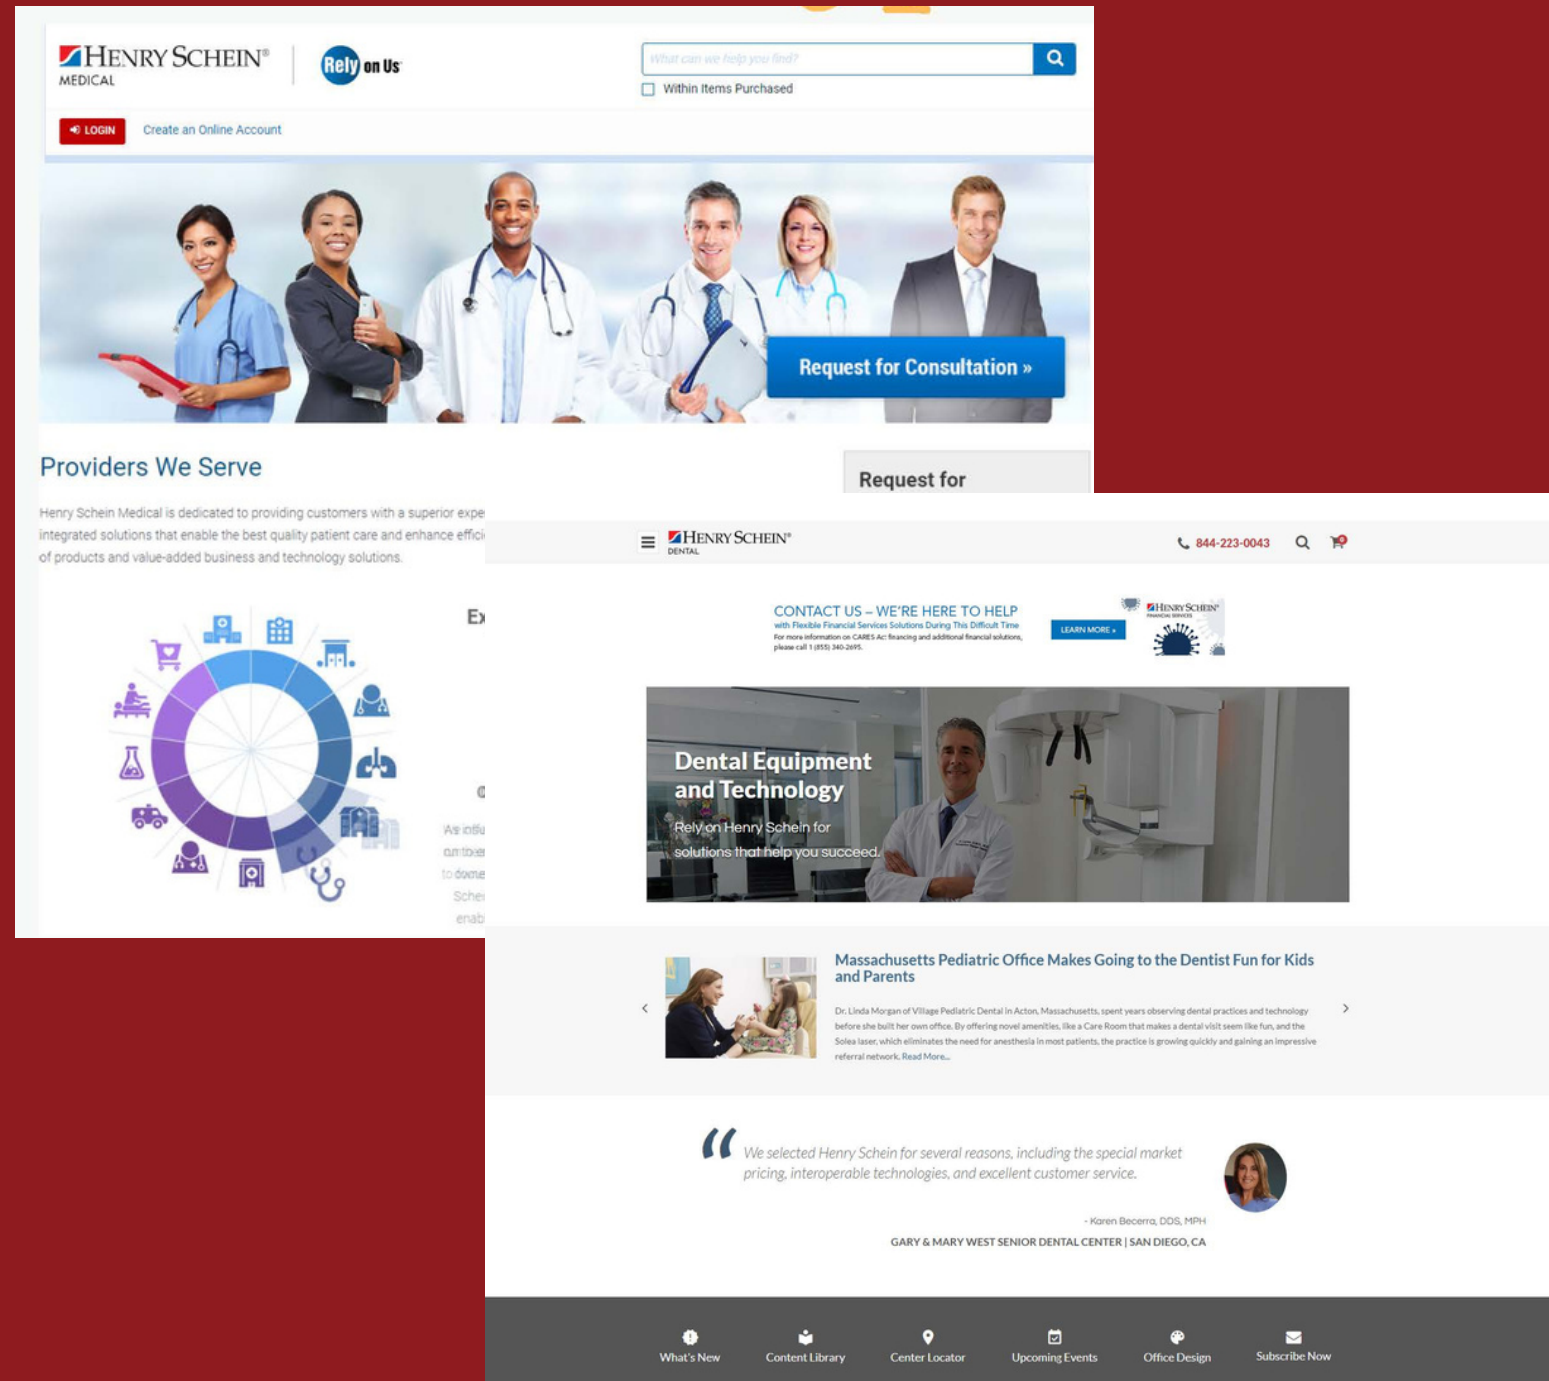

This is a screenshot of the Spotify web interface for the 'A Breath of Fresh Marketing' podcast. The interface is dark-themed. On the left is a navigation sidebar with the Spotify logo and options for Home, Search, Your Library, and Playlists. The main content area features a large header with the podcast's cover art (a white square with black polka dots and the title in cursive) and the host's name, Melissa Psihudakis. Below the header is a 'FOLLOW' button and a play button. The 'All Episodes' section lists two recent episodes: 'Body Art with Nelly Recchia' (Dec 22, 36 min) and 'Pet Love with Katie Grissum' (Dec 15, 42 min). An 'About' section on the right provides a brief description of the podcast and a link to 'see more'. At the bottom right, there is a trailer for the podcast, 'A Breath of Fresh Marketing (Trailer)', which is 53 seconds long.

METHYL-LIFE

Methyl-Life is a health and wellness brand of vitamin supplements that came to WebRocket Media with a poorly designed Woocommerce site and a need for a cohesive social media strategy, email marketing and paid advertising. Web Rocket successfully redesigned their website, began a social media and email marketing campaign, helped get Methyl in the three pack for Google My Business, and organized a successful Amazon campaign.

Week of 04/20

Your immune system is your body's defense mechanism against various different illnesses, infections, and diseases. It knows what cells are vital to the body's function while working to eliminate anything that's unwanted.

With the COVID-19 outbreak causing widespread panic around the world, the most effective thing we can do for our bodies during this time is to take care of it in the best ways we know how.

With proper awareness and a proactive attitude, we can fight through this and return to the life we've grown accustomed to. If you're like the rest of the population and are trying to find ways to boost your immune system, you've probably come across a wide range of conflicting arguments.

We've noticed a lot of inaccurate information floating around, and we wanted to set the record straight on some proven ways to boost our infamous immune system.

A Personal Welcome from Methyl-Life!

Hi Jamie,

Thanks for joining us at Methyl-Life. As the founder, I'd like to personally reach out and welcome you.

Methyl-Life was created as a result of my own journey with MTHFR. Since then we've seen so many people improve energy levels, sleep, mental clarity, depression, anxiety, digestion, and more.

We're here to help you create optimal health and vitality, and we're always adding new resources. In the coming weeks we'll be sending you information on how to find the right dose, connect with the right doctor, and more—plus promo codes and special offers.

In the meantime, what brings you to Methyl-Life, and how can we support you?

Please reply to this email and let me know. I read every email, and your questions and requests help us create resources best suited for your needs.

Just starting to learn about MTHFR? In this video, with the help of Dr. Sierra Storm, I share my personal story with MTHFR and what you can do to start feeling better today.

Also, please check out our [MTHFR Newbies](#) page for some initial steps to take.

STAYING POSITIVE IN A CRAZY WORLD

Week of 04/06

This week we would like to highlight some really awesome and exciting things that are happening within Methyl-Life. We know that the world outside is a bit overwhelming right now, but we believe that as long as we are here for each other, everything will turn out all right. And if you choose to watch the news you will see spots of beautiful light speckled among the rising numbers and somber reports- the light of people who are out there working as hard as they can to keep the world spinning in the right direction. Just like Mr. Rogers, we look for the helpers.

Because regardless of how bad this gets, it will not last forever. And when the light starts to shine at the ends of the tunnel and doors start opening up again, we hope you all hit the ground running.

Boost Your Immune System!

With our Sucrosomial Magnesium, you get more magnesium transported into your cells where your body can actually best use it.

Magnesium is a very important methylation supporter and we've finally found a version we're very proud to make available to our MTHFR customers. We're excited to bring you more cellular vitality with our **Sucrosomial Magnesium®!**

Normally (if anyone remembers what normal is :) there wouldn't be much us 'regular folks' could do, but in this current crisis many of us are lucky enough to be able to contribute.

Many of us are learning how to work and teach our kids from home. Some of us are applying for assistance we never thought we would need. We have been given this time of cautious reflection to examine the journey we are currently on and some downtime to make a plan for the future.

Methyl-Life Founder Jamie Hope was on an episode of A Breath of Fresh Marketing, where she talked about how she is staying healthy and active through the social distancing measures! [Check it out here.](#)
